

The Little Wave by Pip Harry

The Little Wave introduces us to three main characters: Noah, Jack and Lottie. Lottie and Noah live by the sea in Manly and Jack lives in the country, but soon they will all meet each other when Jack's class goes to the sea for a class visit. We follow the stories of all three of the children and the different, sometimes hard, stories they have to tell us about their lives as they each prepare for the visit. This was a really easy book to read. I loved that although the children's characters were very different, coming from varied backgrounds and with different issues to have to cope with, they all found each other and overcame all the problems that seemed so hard at the beginning. Thumbs up!
