

## I'm a Tree

All of them gone  
With me next in line  
For two years we lived in peace  
When everything was fine

We all held nature up  
We used to stand tall with pride  
I always think about that now  
How we used to strive

My life was very simple  
Until people stopped doing right  
They tortured the earth to its end  
But none of us could fight

They wiped out all of us  
My friends and my family  
I am now the only one left  
But I hope we lived happily

What could I do  
I'm hopeless you see  
There is nothing I can do  
After all, I'm a tree.
